RFP NO: 41/eGovt/2024 Audio Video & Broadcast system

Press Conference Room

For (MoGC)

Q and A

Q1	Please clarify the below:
	1- Steel Structure Frame QTY 1
	Please specify the intended use of the Steel Structure Frame.
A1	Steel Structure Frame is used to hold the 3 Screens since we have a Gypsum board,
	and it doesn't support the screens' weight.
Q2	Please confirm the preferred installation method for the screen: mobile bracket or
	wall mount.
A2	Wall Mount on Steel Structure Frame
Q3	PTZ Audio Tracking Camera (QTY=3) Will the PTZ cameras require integration with a
	discussion system?
A3	Yes, with Voice Tracking Capability.
Q4	Earbuds Wireless QTY -1 Please clarify the intended use of the wireless earbuds within
	the system
A4	Earbuds Wireless is needed for the Control Team Communications and it's integrated
	with the discussion system.
Q5	Room Lighting/Dimming QTY - Lot Regarding the lighting, please confirm if it requires
	dimming functionality or if simple on/off switching is sufficient
A5	Yes, dimming capability from 0% to 100% is required.
A5 Q6	Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor
	Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor
	Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please
	Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio

Q6 A6	 Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio mixer to the project? Yes, it is a Bidder's responsibility to include any accessories needed during the installation.
Q6 A6	 Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio mixer to the project? Yes, it is a Bidder's responsibility to include any accessories needed during the installation. Please clarify the below:
Q6 A6	 Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio mixer to the project? Yes, it is a Bidder's responsibility to include any accessories needed during the installation. Please clarify the below: Regarding the HDMI splitter: How many HDMI output sources are needed for existing
Q6 A6 Q7	 Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio mixer to the project? Yes, it is a Bidder's responsibility to include any accessories needed during the installation. Please clarify the below: Regarding the HDMI splitter: How many HDMI output sources are needed for existing and new screens?
Q6 A6 Q7	 Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio mixer to the project? Yes, it is a Bidder's responsibility to include any accessories needed during the installation. Please clarify the below: Regarding the HDMI splitter: How many HDMI output sources are needed for existing and new screens? As per RFP specs, the HDMI Splitter 1 in 16 out, supports new screens in the press
Q6 A6 Q7 A7	 Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio mixer to the project? Yes, it is a Bidder's responsibility to include any accessories needed during the installation. Please clarify the below: Regarding the HDMI splitter: How many HDMI output sources are needed for existing and new screens? As per RFP specs, the HDMI Splitter 1 in 16 out, supports new screens in the press room.
Q6 A6 Q7 A7 Q8	 Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio mixer to the project? Yes, it is a Bidder's responsibility to include any accessories needed during the installation. Please clarify the below: Regarding the HDMI splitter: How many HDMI output sources are needed for existing and new screens? As per RFP specs, the HDMI Splitter 1 in 16 out, supports new screens in the press room. Please share the system topology (Diagram).
Q6 A6 Q7 A7 Q8	 Audio Distribution box QTY 1 Regarding the audio DA, do you need to add any floor boxes for audio cable distribution in the room? Regarding the audio mixer, please confirm it will be included in the tender scope. If not, is it mandatory to add an audio mixer to the project? Yes, it is a Bidder's responsibility to include any accessories needed during the installation. Please clarify the below: Regarding the HDMI splitter: How many HDMI output sources are needed for existing and new screens? As per RFP specs, the HDMI Splitter 1 in 16 out, supports new screens in the press room. Please share the system topology (Diagram). It is a Bidder's Responsibility to provide the Topology Diagram based on the Proposed

Q9	Please confirm if an AC unit is needed inside the new control room.
A9	It is a Bidder's Responsibility to Include A/C or other needed accessories which is part
	of the Room Preparation.
Q10	Regarding the power source and UPS, please confirm if it's under the bidder SOW.
A10	It is a Bidder's Responsibility to provide the Power from the Main Power Panel within
	the Building, depending on the Site Visit.
Q11	Usually, the discussion system comes with 1 chairman and 4 delegates, please advise
	on the suggested scenario since the RFP mentioned 5 chairmen.
A11	The requirements are to use all discussion systems with 5 chairmen with Full Control
	over all of them.
Q12	For Earbuds, please confirm that exact use of this device.
A12	Earbuds Wireless is needed for the Control Team Communications, and it's integrated
	with the discussion system.
Q13	Regarding the PTZ audio tracking cameras the specs is not related to the press room
	functionality, it's related to video conference and meeting room purpose especially
	the built-in voice tracking feature since this feature is usually compatible with the
	discussion system, once the user presses the microphone, the camera will track the
	speaker.
A13	Our design for the three Cameras is as follows:
	• 1 x with Voice Tracking with a discussion system,
	• 1 x Camera with Panorama View to the Press Room,
	 and the third one with a specific and Manual View as per needs,
	So we will have three Layers controlled By the Camera Control Unit as per RFP Specs.
